Javier Peiró

Vocals, piano & keyboards

Jorge Sasera

Synthesizers on "Cosmic yell" and "True love"

Recorded at JR Lasala and Sarabanda studios, Valencia between November, 2015 and February, 2016

1 **COSMIC YELL** 4:21

I have
So many things to tell you
I have
So many things to tell you

But suddenly there's nothing coming into my mind
Suddenly I'm feeling like I have been paralyzed

I have
So many things to tell you
Yeah, I have
So many things to tell you, my dear

But suddenly there's something blowing into my mind
Suddenly I'm feeling like I'm fainting right inside

There's no time

Won't be late
I'll come up
See u there

I will rise from the shadows
Non stop til I find (you) ...
There's no time
Don't be late
I'll come up
See u there

I will rise from the shadows...

...Will I see your face?
Will I see your face?
Will I see your face again?
Will I see your face again?

(...it's not the end)

2 THUNDER 4:13

Like a thunder
I always hear a sound in the silence
When I'm under
I always see a sign in the lightning

But when I see the world is crumbling
I lose myself to break this rage...
...away!

Like a thunder
I always hear your voice in the darkness
When I wonder
I'm guided by the forces of nature

But when I see this world of madness
I'm looking shelter in the things that rule...
...within!

...the will that swings so gently
...in the weight of things that matter
...in the eyes that look so enticing
...in the love that spreads so quickly...

...away!

...the streets that look so sacred
...in the love that kills me gently...
...again

3 FUGITIVE SENSITIVE 4:24

With all the lights that shine upon
And all the tears, the river flows
We just forget this life is so
Amazing

Spend the day right on my own
We never get what we deserve
Unless we sell our souls for less
Forget it!

Once again the same report
We lose our hopes
Once again the same old song
We're growing old

We change the plot like suicides
We mind the way we say goodbye
But you don't feel hungry enough
To taste it

With all the lights that shine upon
We put our frowns down for a while
Disguising disapprovals just
Pretending

Once again the same report
We lose our hopes
Once again the same old song
We're growing old

The clocks are right
You lose your mind
Is it any helpful?
Is it any help
The plan you draw?

The clocks are right
You realize
You're out of time
To settle down

Is it any helpful?

Is it any help
The plan you draw?
Is it any helpful?
Is it any help
Your shake of hands?

Is it any helpful...?
Is it any helpful...?

Is it any helpful...?
Is it any helpful...?

With all the lights...
With all the lights...
And all the tears, the river flows...
We just forget this life's amazing...

"World's shrines between us
I keep this ritual in my mind
World shines up here
I'm chasing all the real lights"

4 ELECTRICAL LOVE MACHINE

4:14

It's an electrical raw silly loving... (affair)

It's an electrical love disease

It might be cruel, you were not made to suffer

Don't look at me with those timid eyes

They make me nerve, they think that this is worrying

The same old cheat, same smelly mouth

It's an electrical raw silly loving...

I'm so amazed by your perfect line

What do you want from me? Baby I don't know it

I'll just go mad if you're making fun

You're kind of cruel, your silhouette is so glowing

Metallic arm sensitive your touch

Chorus

'Cause we are among the stars, upon everything tonight

'Cause we are against the sun, against the everlasting

lights

What does she want? Baby, it's so ironic

She's an electrical love machine

Blow up my mind, can't keep it undercover

Looks like she's known me since ancient times

If you prefer an organical lover

If you don't need such a virtual heart

Well, I don't mind, I'll got mine in a moment

Well, I don't mind, (just) undergo this life

Chorus x 2

You were heartless, I'm so jealous

Run together, be my rebel

It's an electrical raw silly loving... (affair)

It's an electrical love disease

You might be cruel, not supposed to be lovers

A sickie feel full of funny talks

Chorus x 2

5 I AM AN ACTOR 5:32

I'm an actor
And I complicate the truth
We've been warriors
There's no excuse

I'm an actor
Hesitation is so cruel
Got a lack of
Attitude

Na na na na na

I'm an actor
Entertainment just for you
I've been reading
In your book

You're a doctor
You prescribe one thing for sure
This is hollow
Not for you

(It) matters
It matters when I'm playing for you
(It) matters
It matters when I'm scared cause of you

Na na na na na
Na na na na na

I'll go my way
I'll go my way

I'll play my show, my story
I will keep my face in the morning

I'll go my way
I'll go my way

I'll change the script, my story
I'll write my words, my glory
I'll play my show, my story
I will keep my face in the morning, yeah!

Na na na na na
Na na na na na

6 SYNCHRONIZE 1:56

I can feel your love tonight
Something's wrong beneath your skin
I can whisper in your face
You just don't know what to say

Every single one of us
Lonely in this universe
Every single one of us
Feeling so scared...

I can hold you in my arms
Feeling safe or (you) just despair?
And I wonder how it has changed
(It) used to be much more intense

Every single one of us
Getting lost in universe
Every single one of us
Trying to make sense...

Can you see what life is about?

(It) used to be so easy, to be breathtaking
Now it seems I'm getting the first
And you're too late

If you shoot me once again
Then I will walk into your shame
If you're looking for an end
Then there's no reason to pretend

Every single one of us
Fading in this universe
Every single one of us
Living in the...

Can you see what life is about?
(It) used to be so easy, to be breathtaking
Now it seems I'm getting the first
And you're too late

Can you see what life is about?
(It) used to be so easy, to be breathtaking
Now you want to finish the first
I want to wait...

7 GOLIATH 5:39

A man being forced to leave
He's been thrown away
Infinity

Punished to exile
No forgiveness cause
His honesty

And even though it's dark to perceive
He sees a light in the shadows
And even though it's hard to believe
He finds a god at the bottom

He's looking for someone to eat

He's crossing down the street
Like an animal
That's been healed

He's making up his mind

Now he's fighting for
Dignity

And even though it's dark to perceive
He sees a light in the shadows
And even though it's hard to believe
He finds a god at the bottom

He's looking for something to eat
Looking for someone to beat
Looking for something to eat
Looking for someone to beat

No more promises (he's not the one you think)
No more dreams
No more commitments (he needs to make it real)
No more tears

He's back
He believes
There's a light in the shadows

Back
He believes
There's a light in the shadows

Back
He believes
There's a light in the shadows

Back
He believes
There's a light in the shadows

A man being forced to leave
No more glory days
Fantasies

A man being forced to sit
No more greatness cause
Deficiency

8 HALF IN WAIT 4:51

One thousand mornings half in wait,
You keep on calling
But I've got nothing left to say,
I keep on struggling
In my head, you singing something
In my bed, feels like I'm falling (down)

All the things you don't understand,
Coming and going
All the people walking out of this,
While I keep on crashing
In my hands, all becomes nothing
In my head, something is flowing

And I still believe, quietly, tenderly, you and me,
All these things, it doesn't really matter,
All the boys and girls looking for shelter,
You and me, you and me

One thousand moments half in wait,
You keep on calling
But I'm still walking in the rain,
I keep on wondering
I'm afraid, all becomes nothing
And again, something is working

And I still believe, quietly, tenderly, you and me,
All these things, it doesn't really matter,
All the boys and girls looking for shelter,
You and me, you and me

And I still can see, easily, naturally, endlessly,
All the words unspoken all the answers,
All the pretty eyes beneath the anger,
You and me, could it be

All the things you can't see...you cannot hear
(I) wonder why I still believe in you and me

9 UNTIL THE END OF THE WORLD

4:19

Until the end of the world
Until the end of time
Until the end of my life
Couse you're not mine

Until the end of the world
Until the end of time
Until the end of my life
A view inside

Moving
Thinking
My final destination
Is always unpredictable

Changing
Moments
I mess around...

Holding
Feeling
My only expectation
To find a new direction

Thrilling
Journey
I start to walk

Until the end of the world
Until the end of time
Until the end of my life
Couse you're not mine

Until the end of the world
Until the end of time
Until the end of my life
Unsatisfied

Moving
Thinking
I'm out of situation

Full of hesitation

Turning
Running
Out of time

Creeping
(I'm) feeling
I need some explanation
To kill my desperation

Tearing
All these
Pics apart

Don't break me...
...Lovers steal your time

Don't make me...
Lovers went through the...
Lovers went through the night

Lovers went through the night

Lovers steal your...
Lovers steal your time
Lovers steal your time

Moving
Healing
A brand new situation
(I) need some kind of pleasure

(You) killed me...
(You) threw me...
...out of my mind!

Until the end of the world
Until the end of time
Until the end of...
Until the end of...
...time!

10 **TRUE LOVE** 3:48

True love, always believed there's a true love
But you're gonna pay such a true cost
If you want to win

True love
Always believed there's a true love
Thought that perhaps there are unions
Never ment to break

I'll find my way in the shadows
Couse love has blinded me again
I hope my way starts to widen...

...again and again
Again and again

True love
Always believed there's a true world

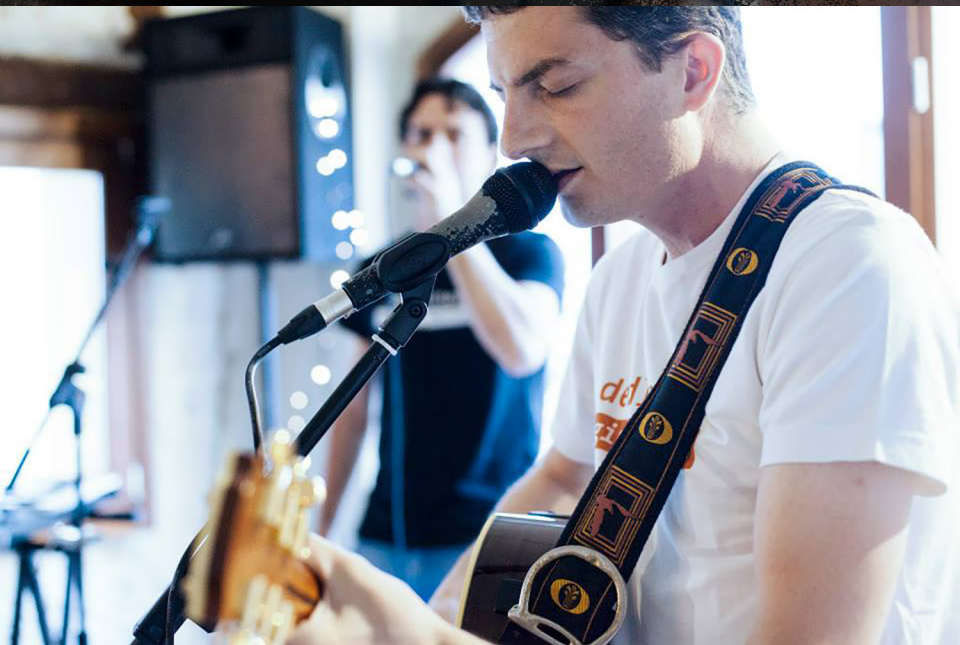

Thought I had made such a good choice
But you gave it away

True love
Always believed there's a union
Couse you always said we'd become one
But you gave it away!

I'm getting jaded of your reasons
And you just don't know what to say
I'll make my way out of the shadows...

...again and again
...again and again

True love
Always so full of illusions
I never expected that lone road
When you asked me to stay

DKD THANKS

All the people who have been supporting
us during all these years, especially our family and friends.
Also, thanks to our current collaborator, Jorge Sasera, and Michael Gregoire,
for signing us on, once again, at his label, blocSonic.

Dedicated to Carlota & Mar.
