

SUMMIT
daddy mcfree ep

Sumgii is a London based producer who has worked with many amazing artists including the likes of **Foreign Beggars, Medison, Dubbledge** and blocSonic's own **Formula aka UNknown**. Sumgii is also full-time engineer, producer and DJ for UK's BASS music act **LDZ**.

Sumgii brings you this 5 track EP to showcase his various styles in beat-making and production. Along with the real analog synthed out soundscapes, bass-lines and glitched up drums, this EP gives you that CLASSIC Hip-Hop sample-based style of production all in one package.

Sumgii's music has been getting regular plays at the legendary **Low End Theory** and with support from **Quarry, Naive Machine, KidKanevil & Cestladore**, this EP is not to be ignored.
